- ◆ *Are you watching kids scroll through life, with their rapid-fire thumbs and six-second attention span?*
- ◆ *The average kid spends 6.5 hours a day looking at screens.*
- ◆ *Physician and filmmaker Delaney Ruston observed this with her own kids and wondered about the impact of all this time & about the friction occurring in homes and schools around negotiating screen time—friction she knew all too well.*
- ◆ *Explore the struggles over social media, video games, academics and internet addiction.*
- ◆ *SCREENAGERS reveals how tech time impacts kids' development and offers solutions on how adults can empower kids to best navigate the digital world and find balance.*
- ◆ *Recommended for ages 10-16. View preview at [www.screenagersmovie.com/](http://www.screenagersmovie.com/)*
